

Back or leg pain? Don't blame it on your age.

Far too often pain is blamed on age. But slight pinching of nerves in our spine is responsible for so much of the pain we experience during the course of our life.

When a restricted joint is given a Chiropractic adjustment and the nerve no longer pinched, you feel better because it is better – whether you are 98 or just three weeks old.

One of **BRITCHIRO**'s patients had been on a waiting list for a back operation for months and was resigned to walking with two sticks when her neighbour suggested she try **BRITCHIRO**.

A patient's X-rays are explained

"I am pleased to say my Doctor of Chiropractic has brought me from constant pain to walking without sticks. I might add that six months later I still haven't heard from the hospital. I wonder how many people waiting in the queue could be helped by **BRITCHIRO**."

Another seventy-four year old **BRITCHIRO** patient had been left with many scars after a career in horse breeding. She had been on pain-killing drugs for over 30 years, which relieved the pain somewhat but not the problem. A friend took her to **BRITCHIRO**.

"I have to admit I was somewhat sceptical about the whole thing

having had various other kinds of treatments over the years. But it has been a total revelation to me. To be able to dance, to walk without pain, even to lie in bed and not be aware that I have a leg, a shoulder, a neck & knee is beyond my comprehension, after so many years of pain."

BRITCHIRO – one of the UK's leading providers of Chiropractic healthcare, with branches in Horsham and Horley, successfully treats thousands of patients over the South-East every year for both acute and chronic problems.

Many of the health problems we encounter in a lifetime are biomechanical, meaning dysfunction of joints in our frame, be it in the spine or arms and legs. As we get older, our body inevitably has 'collected' more physical injuries, be they large or small ones. Furthermore our body's ability to heal itself diminishes with age and therefore many of **BRITCHIRO**'s patients are the older generation who are thrilled to be able to feel confident in their body's ability again.

If you would like to consult one of the Chiropractors at **BRITCHIRO** you need to make an appointment for an Examination. The Doctor of Chiropractic will take details of your medical history and discuss with you any concerns you may have with your spinal health.

This is followed by a physical examination – including Chiropractic, orthopaedic and neurological procedures as well as X-ray examination if necessary.

Once a specific diagnosis has been made it is explained to you in detail including the

Live your life without pain.

appropriate treatment and the amount of treatment required. You will also be told if Chiropractic is not likely to help your situation. The charge for the examination is £40 and each treatment session costs £30.

The Horsham clinic is located at 13 West Street, Horsham (above Costa Coffee). Reception can be contacted on (01403) 275 000.

The Horley clinic is located at 68 Victoria Road (opposite HSBC Bank). Reception can be contacted on (01293) 823 444.
