

Local Sports Therapist Praises BritChiro Clinics for Chiropractic treatment for Back Pain

BritChiro – One of England's leading providers of Chiropractic healthcare, successfully treats thousands of patients throughout the South of England every year for a variety of conditions including back pain, leg pain, neck and arm pain and headaches.

Dr Shelley Irving and Dr Rob Viney both practice in the New Milton practice. They are both highly proficient Doctors of Chiropractic who are registered with the General Chiropractic Council and are well respected in the local community. If you would like to consult one of the Chiropractors at BritChiro you need to make an appointment for an Examination. The Doctor of Chiropractic will take details of your medical history and discuss with you any concerns you may have with your spinal health. This is followed by a physical examination – including Chiropractic, orthopaedic and neurological procedures as well as X-ray examination if necessary. The charge for the examination is £46 and each treatment session costs £36.

BritChiro patient Fiona Bayfield and her Chiropractor Rob Viney

“From my very first appointment with Rob, he exuded a confidence and knowledge that made me feel I was in the right place. If you’ve never been to a chiropractor (or worse still, been to a bad one!) you’ll appreciate that these are important criteria if the treatment is going to be successful. Rob also possesses excellent inter-personal skills so he easily communicates with his patients on a professional and personal level, helping you to feel involved in your treatment and well connected with him and the process of getting well again. I have needed treatment over the last few months for a bulging disk in my lumbar spine and I am most grateful for Rob’s excellent care. He has been kind, understanding and conscientious, never giving less than 100%. It has been a long haul that is not completely over yet, but with Rob’s help I am starting to return to sport and cannot thank him enough for his exemplary treatment.”

The New Milton clinic is located at 27 Old Milton Road, New Milton and reception can be contacted on 01425 62 88 44. More information can also be found at www.britchiro.com
